Agenda

- Introductions (Elevator Pitch)
- Problem Statement
- Proposed Solution
 - Architecture
 - Assumptions
 - Interfaces
 - Security
- Summary

Introduction

Subtitle placeholder

Who Am I?

Your bio/introduction, elaborate on your experience and skill sets that will benefit the client stakeholder responsible for the solution you are proposing.

Problem Statement

Subtitle placeholder

High Level Problem Statement

State the case and problem you are solving to ensure you understand the client stakeholder needs.

Proposed Solution

Subtitle placeholder

Solution Architecture - Context

Describe the overall application landscape

- Include specific details where applicable around application capability, volumes, security, DMZ, etc.

Sample Integration Architecture

Key Assumptions

- List the assumptions you've made about the solution

Interface List

Interface ID	Interface (Source - Target)	Interface content	Integration Pattern	Salesforce Implementation	Comments
INT01 - Products	Sample ERP	Salesforce	Batch Data Synchronization	Bulk API - Daily ETL from ERP. Leverage Informatica	Assume ERP can produce delta loads

Integration Security

- For each interface, describe how you'll secure the interface to meet client's needs

Summary

Summarize your solution by highlighting the key components that will drive the client's goals. Quantify as much as possible, be clear and concise.

thank you
